
Making a Difference in the Journey of Life

2022 Product Catalogue

Hollister

The fundamental values and principles of our founder, John Dickinson Schneider, form the foundation of our company today.

Our Mission

To make life more rewarding and dignified for the people who use our products and services.

Our Vision

To grow and prosper as an independent, employee-owned company and in the process become better human beings.

Our Heritage

The roots of Hollister Incorporated date back to 1921, when 23-year-old entrepreneur John Dickinson Schneider founded a small printing company in Chicago, which he named JDS Printer Craftsman. From the very beginning, John Schneider's business philosophy was "only first class is good enough," and the company became known for its quality products, quality service, and quality people.

General Information

Terms of Payment

Net 30 days from date of invoice. Electronic Fund Transfers (ETF) are possible. Please contact the customer order department.

Minimum Order

The minimum order requirement for a dealer is $250.00. A charge of $10.00 will be applied to any order below the minimum requirement.

Shipping

Prices for shipments to destinations in Canada are FOB buyer's address.

If the method and route of shipment are specified by the buyer, the buyer is required to pay the delivery charges, upon delivery of products to the carrier, all risk of loss and other incidents of ownership pass to the buyer. These terms may not be altered.

Pricing & Terms of Sale

GST/HST will be charged where applicable. Buyer agrees that they will not at anytime, directly or indirectly, sell or distribute, to customers which are located outside of Canada.

Return Goods Policy

All returns for credit require an authorization number from Hollister Limited. A Returns Goods Authorization (RGA) can be obtained by contacting a representative at Customer Service 1.800.263.7400 or by email **canadacustomerservice@hollister.com**. Written request for authorization is required.

Hollister will authorize returns under the following conditions:

1. A 15% restock fee will be applied to all returned goods over 30 days from the date of invoice.
2. Copy of invoice or purchase order number must be provided for the return request.
3. **Product returned by customers without an authorized RGA number will be disposed of by Hollister Limited and no credit will be issued.**

*Hollister will **NOT** authorize the return of the following:*

1. Goods over one (1) year from the date of invoice.
2. Partial boxes of merchandise.
3. Boxes in unsaleable condition (i.e markings, sticker for sale, sun fading, dented boxes due to improper handling/return packaging, sticker glue, etc.)

Damaged Product:

1. Customer must call Hollister Limited to receive an RGA number within 5 business days of receipt.
2. Receiving dock is responsible for documenting, on the bill of lading, when a shipment is received in damaged condition.
3. Customer must provide copy of invoice, invoice number or purchase order number for the return request.
4. Credit will **NOT** be issued if customer disposes of damaged/defective product without approval by Hollister Limited.
5. If product cannot be returned due to extreme damage (leakage/broken) customer must provide pictures to Hollister Limited within 5 business days of receipt to gain approval to dispose and thereby obtain credit for the same.

Ostomy & Continence Retail Sample Policy

All sample requests at the Retail level are to be processed through Hollister Customer Service by calling 1.800.263.7400 or by email canadacustomerservice@hollister.com.

Retailer/client is to contact Customer Service and provide consumer information for sample processing. Samples will be shipped directly to consumers from Hollister Limited. Samples will **no longer** be available to ship directly to a retail setting.

Shortages

Customer must notify Hollister Limited within 5 business days of receipt on shortages. A shortage is a difference between what was physically received and the master pack list.

Customer Satisfaction Return Policy

All Customer Satisfaction Returns require authorization by your Hollister Territory Manager or a Customer Service Representative.

Unauthorized Customer Satisfaction Returns will not be processed.

Hollister will authorize Customer Satisfaction Returns under the following conditions:

1. The customer has been given a no-charge, full box replacement of Hollister product for their partial box return, and
2. A Customer Satisfaction Return form has been completed, and
3. The returned box has been given to, and the completed Customer Satisfaction Return form has been authorized by your Hollister Territory Manager or a Customer Service Representative.

Prior to Use

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

Latex Statement

The specifications for the Hollister Continence Care products listed below include natural rubber latex as a component; our suppliers add natural rubber latex as part of the production process. If a Hollister product(s) found in this catalog is not listed below, the specification for that product(s) and packaging does not include natural rubber latex as a component, and our component suppliers do not add natural rubber as part of their production process. Product # 9206, 9207, 9208, 9209, 9106, 9107, 9108, 9109

Ostomy Care

Healthy skin. Positive outcomes.

Healthy Skin. Positive Outcomes.

Choosing the Right Skin Barrier FIT

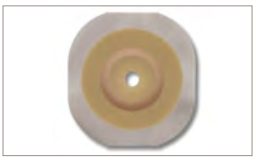
FIT is critical to get a good seal around the stoma to prevent leakage and promote comfort.

Barrier Examples

Flat Skin Barrier

Flat Skin Barrier with Round or Oval Convex Barrier Ring

Integrated Soft Convex Barrier



Integrated Convex Barrier

Integrated Convex Barrier with Round or Oval Convex Barrier Ring

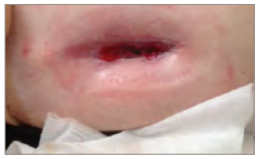
Possible Clinical Case Scenarios

Flat Skin Barrier
- Flat peristomal plane
- Adequate stoma protrusion
- Centered stoma opening

Flexible Convexity
- Stoma flush with skin
- Uneven peristomal plane
- Off-centered stoma opening

Soft Convexity
- Gentle pressure required to peristomal plane
- Flush stoma
- Peristomal injury

Firm Convexity
- Creases or folds in peristomal plane
- Off-centered stoma opening
- Stoma retracted below skin surface



Firm Convexity with More Depth
- Recessed or flushed stoma
- Uneven abdominal contours
- Off-centered stoma opening

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

Healthy Skin. Positive Outcomes.

Choosing the Right Skin Barrier FORMULATION

FORMULATION is the customized ingredients responsible for adhesion, erosion resistance and absorption that must be carefully formulated to create an environment where healthy skin can thrive.

Extended Wear Skin Barriers

CeraPlus

- Contains skin barrier characteristics (adhesion, absorption and erosion resistance) and is infused with ceramide—a naturally occurring lipid in the skin which protects against dryness
- Formulation designed to help protect the skin's natural moisture barrier and help maintain good peristomal skin health

Flextend

- Durable with resistance to erosion
- Swells when it comes in contact with liquid to help form a seal between the skin and the stoma
- Suitable for those who perspire heavily
- Strong adhesion and flexibility

FormaFlex

- Maintains its shape after being stretched or shaped
- Provides an easy-to-customize opening due to barrier material
- Easy to shape to individual stomas without the use of scissors

Standard Wear Skin Barriers

FlexWear

- Good balance of durability and gentleness providing moderate adhesion, and can handle frequent or infrequent pouch changes
- Resistant to fluid erosion
- Suitable for all skin types, depending on change frequency
- Designed to be worn more than one day

SoftFlex

- Appropriate choice for:
  - Those who have thin, fragile, or sensitive skin (such as those who have undergone chemo/radiation therapy)
  - People who desire frequent removal
- Designed to be gentle to the skin, which allows for frequent pouch changes

Karaya 5

- Well-suited for sensitive skin or in some cases where allergic reactions to synthetic barriers has occurred
- Mildly adhesive—needs a belt to secure pouching system

LEARN MORE

Follow the evidence to help ensure healthy skin

After surgery: Peristomal skin starts healthy

+

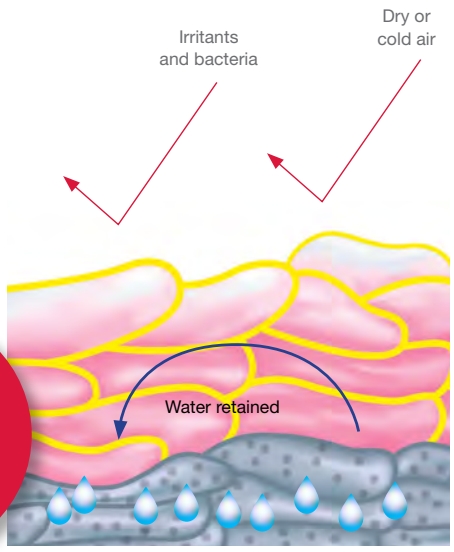
Top layers of the epidermis are removed with *every barrier change*.
It's unavoidable, and the damage isn't always visible.

+

Epidermal stripping is linked to increased levels of transepidermal water loss (TEWL)[1,2]

Healthy Skin:

Keeps moisture in and irritants out



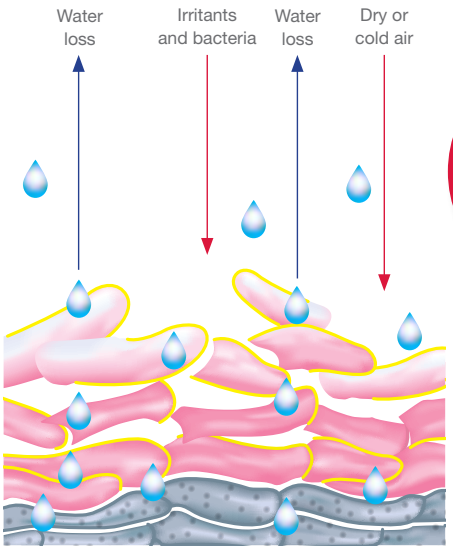
Low TEWL value = higher skin integrity[3]

Ceramides are abundant in healthy skin. They form a waterproof barrier to help keep moisture in and bacteria out.

= Ceramides

Damaged Skin:

Allows moisture out and irritants in



Higher TEWL value = lower skin integrity[3]

Damaged skin contains fewer ceramides.

= Water droplet illustrates moisture loss from skin.

Healthy Skin. Positive Outcomes.

What Happens When Skin is Compromised

Some common signs of a Persitomal Skin Complication (PSC) include:

ITCHING • REDNESS • PAIN • WEEPING SKIN BLEEDING • BURNING

PSCs are often classified as **Peristomal Medical Adhesive-Related Skin Injury (PMARSI)**[9] and **Peristomal Moisture-Associated Skin Damage (PMASD)**[1]

PSCs associated with **INCREASED COST OF CARE**[6]

PSCs associated with **LOWER QUALITY OF LIFE**[7]

What Happens When You Choose CeraPlus Skin Barrier

RELATIVE REDUCTION
in the number of PSCs[5]

INCREASED SATISFACTION
with prevention of itching[5]

Significantly **LOWER STOMA-RELATED COST OF CARE**[5]

Significantly **MORE LIKELY TO RESOLVE PSCs**[5]

TEWL IS MINIMIZED[2,8]

Healthier peristomal skin = **HIGHER QUALITY OF LIFE**[7]

You have a choice. Choose CeraPlus skin barrier and help ensure healthy peristomal skin for your patients from **DAY ONE.**

Designed for Diverse Bodies

Adhesive (Tape) Border Barriers are an appropriate option for most patients, especially those with:

- Skin irregularities such as hernias, wrinkles, or scars
- Anatomical challenges due to obesty or cachexia
- Added need for a sense of security, or extra assurances to accommodate an active lifestyle
- Increased desire for comfort and flexibility

Choosing the Right Skin Barrier FIT

- FIT is critical to get a good seal around the stoma to prevent leakage and promote comfort.
- Convex barrier products can be utilized to help provide a secure and predictable seal.
- Product selection is made by matching stomal protrusion and peristomal contours to the appropriate barriers.
- The outward curving of the convex skin barrier is designed to interface with the immediate peristomal skin.

Refer to page 4 for additional information on The Continuum of Convex Barrier Options.

Lock 'n Roll Microseal Closure Features:

- A secure closure with tiny microseals
- An easy-to-open-and-close seal
- The material used on the closure is water-resistant and can be securely closed even when it is wet, but will work best when dry.

A Great Pouch Becomes Even Better

Enhanced Flow-Control Valve

The new valve is made with softer material and a streamlined shape.

New Multi-Chamber Design

The updated pouches now have multiple built-in chambers, which are designed to facilitate even distribution of urine.

Did you know?

The integrated AF300 Filter is waterproof, and designed to allow gas and air to escape, but keeps odour and output in the pouch. Liquid cannot penetrate the filter, therefore not requiring a protective sticker.

Soft Convex Skin Barriers

Soft convexity is designed to help provide gentle peristomal pressure for an individualized fit. It helps conform to accommodate uneven skin surfaces, and is a more flexible alternative to firm convexity.

- Lock 'n Roll closure
- Tape border
- Beige with viewing option
- AF300 filter
- Belt tabs

Tapered Border is Designed for Enhanced Sense of Security

- Tapered barrier edges help prevent lift from moisture or motion, which can help achieve desired wear time
- Gentle on the skin while still giving the feeling of extra security
- Adhesive flexes and bends to move comfortably with the body
- A new flexible plastic release liner that covers both the skin barrier and the adhesive border to help improve ease-of-use

A great fit. A formulation designed to support healthy skin.

The CeraPlus Soft Convex One-Piece Urostomy Pouching System

Soft convex fit
Flexible design helps provide gentle pressure around the stoma for a better fit

Adhesive border barrier
Additional perimeter of thin adhesive provides extra peace of mind

Ceramide-infused barrier
CeraPlus skin barrier is infused with ceramide to help protect the skin's natural moisture barrier

Multi-chamber design
Multiple built-in chambers are designed to facilitate a balanced collection of urine, resulting in a discreet pouch profile

Soft, flow-control tap
Made with soft material and a streamlined shape, the tap helps provide comfort against the body and makes it easy to identify when valve is closed

Improved adapter
The new side-tab design helps promote ease of use when connecting to any Premier/Moderma Flex one-piece urostomy pouch to a bedside drainage collection system

Hollister

Ostomy Care
Healthy skin. Positive outcomes.

Adhesive (Tape) Border Barriers

- Feature a thin layer of adhesive that surrounds the hydrocolloid barrier.
- Designed to be gentle on the skin, the adhesive moves with the body to easily conform to skin irregularities, creases and folds.
- Application is simple, with no additional accessories required to gain an added sense of protection. Go with the skin barrier that comes with built-in confidence.

Did you know?

- To select the appropriate *Karaya* pouch, determine the stoma size and select the matching Product Code
- The labeling on the *Karaya* box and pouch you have selected indicates the gasket size, NOT the stoma size
- The *Karaya* seal extends into the gasket opening, ensuring that the Product Code you have selected fits the stoma size you have measured

***Shadow Buddies* dolls**

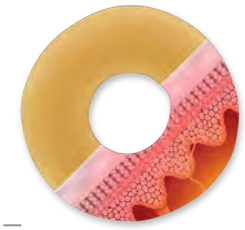
- Exclusive to **Hollister**, *Shadow Buddies* dolls are special friends for children who have had or will have ostomy surgery
- Great teaching tool to help with education and care giving
- Huggable dolls with heart-shaped eyes and a stoma provide comfort and support

Shadow Buddies is a trademark of the Shadow Buddies Foundation

Accessories

Adapt CeraRing

Sealed with the confidence of ceramide



The security + confidence of Adapt meets the science of ceramide

- Available in Flat and Convex for each individual need
- Helps prevent leakage and protect skin—and may even extend barrier wear time
- Resists erosion—even when wet or exposed to discharge from the stoma
- Offers ultimate comfort and ease of use—alcohol-free rings are designed to be gentle for all skin types
- Extended wear
- Infused with ceramide — a natural component of the skin
- Help protect the skin's natural moisture barrier
- Help decrease transepidermal water loss (TEWL) from damaged or eroded skin

Hollister Secure Start Services

Hollister Secure Start Services provides a lifetime of customized support for people in the ostomy and continence care communities.

We are proud to offer dedicated support for each and every patient along the continuum of care! Once enrolled, a Hollister Secure Start Services Coordinator will call to explain our services, answer any questions, and provide ongoing support.

A Hollister Secure Start Services Coordinator can assist with the following:

- Finding the right products
- Providing product information and condition-specific education
- Finding local resources like retailers and clinicians
- Product usage care tips
- Finding reimbursement for your catheter products

Ostomy Care

Continence Care

To learn more about Hollister Secure Start Services, for Ostomy, call us at **1.866.789.7574**, or email us at **securestartcanada@hollister.com**.

For Continence, call us at **1.800.263.7421**, or email us at **canadasssccontact@hollister.com**.

Continence Care

People are at the center of everything we do.

Infyna Chic

Discretion by design

Introducing a discreet catheter with design that is truly inspired.

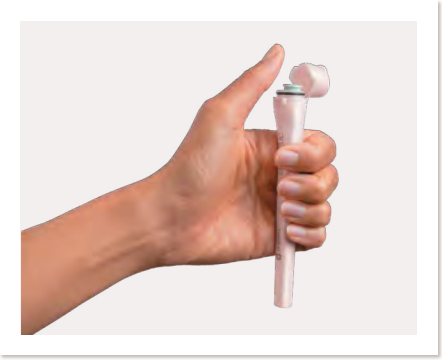
The Infyna Chic™ Intermittent Catheter was designed with input from clinicians to help provide a high level of discretion for women who use catheters. It is beautiful and easy to use. The Infyna Chic catheter can help a woman feel better about having to use one.

Infyna Chic catheter

Product #	Description	Size	Length	Box of
7008	Straight tip	8 Fr	5" (13 cm)	30
7010	Straight tip	10 Fr	5" (13 cm)	30
7012	Straight tip	12 Fr	5" (13 cm)	30
7014	Straight tip	14 Fr	5" (13 cm)	30

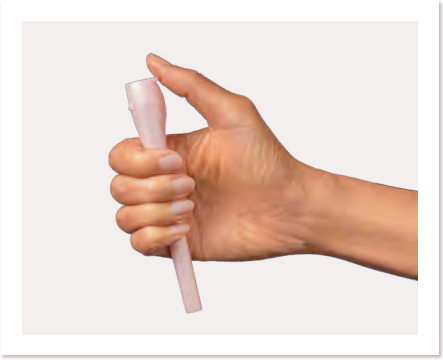
Features that help change her intermittent catheter experience

- Flip-top cap can be opened and closed with one hand
- Ready to use, hydrophilic catheter
- Just right stiffness helps support easy, touch-free insertion
- Catheter length helps give confidence that the bladder is fully drained
- Can attach a collection bag without removing the catheter from the case



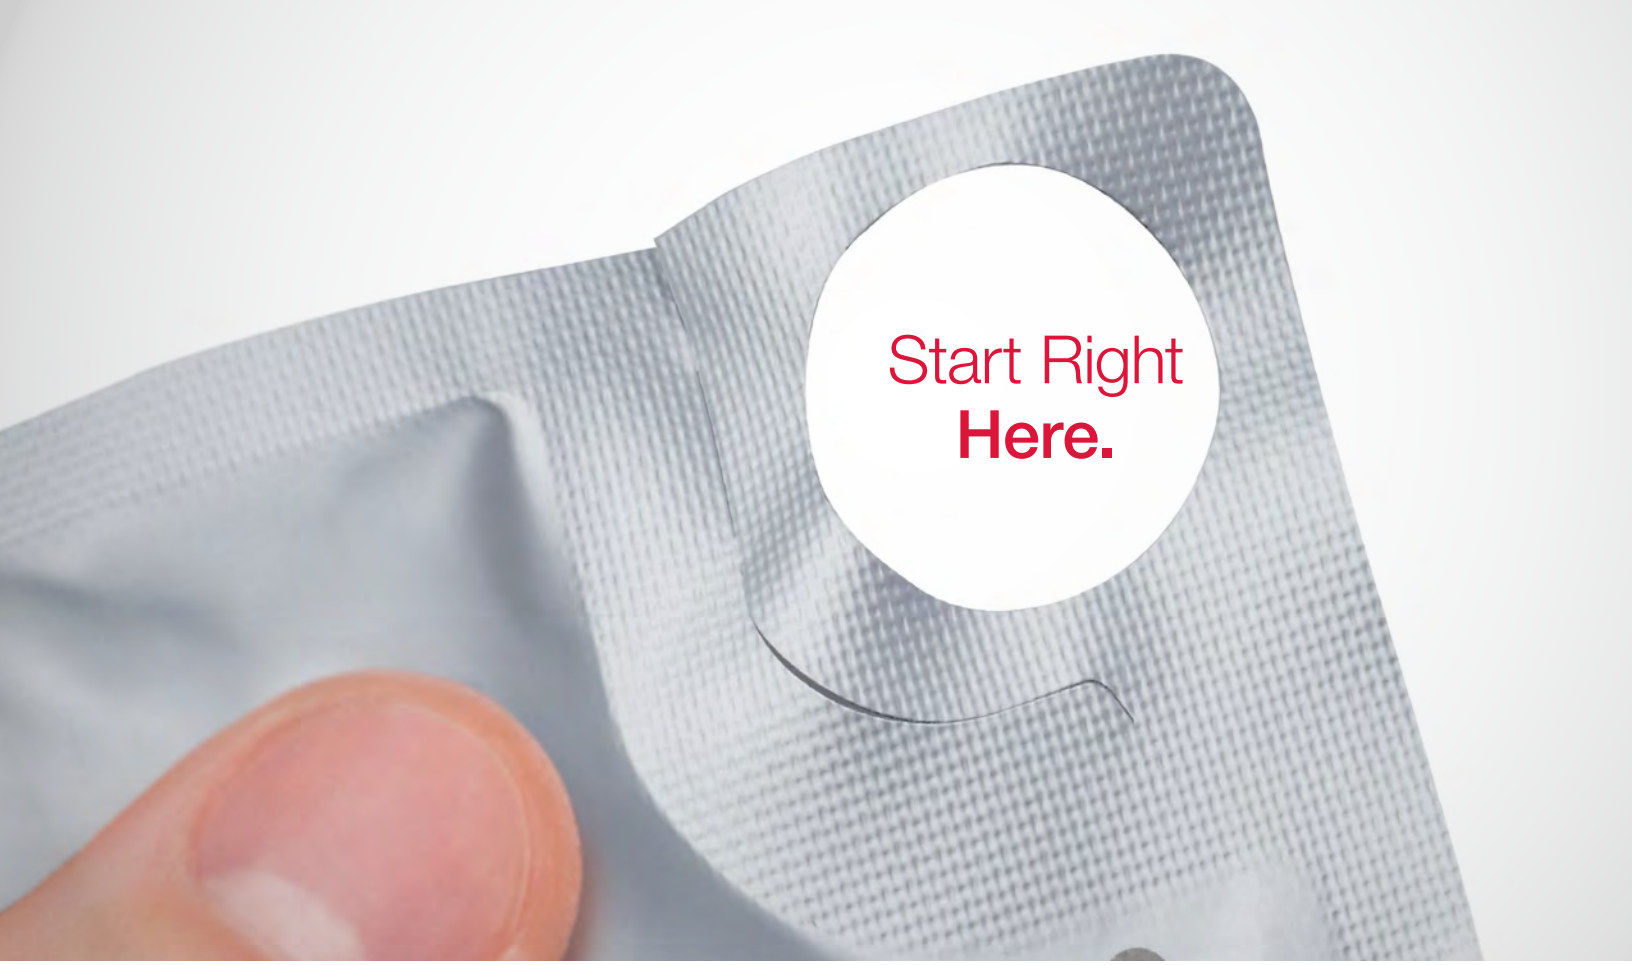
Easy to open with just one hand

Easy to grip and remove from case



Does not leak when reclosed

LEARN MORE



VaPro Pocket™ catheters offer the features that patients want.[1]

Protection. Ease of Use. Discretion.

VaPro Pocket catheters provide 100% No Touch Protection with a protective tip and sleeve, and they are easy to use, with an improved protective tip that offers a more comfortable insertion. The pocket-size package design is more discreet—a quality users prefer.

Consider VaPro Pocket catheters right from the start.

Learn more by visiting Hollister.com or contact us at **1.800.263.7400.**

Improved catheter.
Discreet packaging.

Continence Care

VaPro

Touch Free Hydrophilic Intermittent Catheters

VaPro Catheters Provide 100% No Touch Protection with a Protective Tip and Sleeve:

VaPro catheters are hygienic by design to help protect patients from germs throughout the entire catheterization process.

Protective tip:

- helps shield the sterile catheter during insertion from bacteria located within the first 15 mm of the distal urethra
- helps reduce the risk of carrying bacteria into the urinary tract

Protective sleeve:

- allows for catheter to be gripped anywhere
- provides a barrier to the catheter to help keep germs away

New Study[1] Confirms Superior Protection*

Hollister asked an independent laboratory to conduct a study to see if the **superior protection** of VaPro™ No Touch Intermittent Catheters could be measured. The study compared VaPro catheters to three other brands.

*In comparison to other tested catheters.

Combination Pack

Product #	Description	Capacity	Box of
9348	Medium	18 oz (540 ml)	12 packs
9349	Large	30 oz (900 ml)	

Extension Tubing with Connector

Product #	Description	Length	Box of
9345	Non-sterile	18" (45 cm)	10
9346	Sterile	18" (45 cm)	

Vented Combination Pack

Product #	Description	Capacity	Box of
9645	Medium	18 oz (540 ml)	10 packs
9655	Large	30 oz (900 ml)	

Fabric Strap

Product #	Description	Capacity	Box of
9342	Small	15" (38 cm)	10 pairs
9343	Medium	23" (58 cm)	

Bedside Drainage

Product #	Description	Capacity	Box of
9839	2000 ml Collection System	68 oz (2000 ml)	20

Hollister Leg Bags Are:

- Sterile
- Not Made with Natural Rubber Latex
- Designed with an anti-reflux valve

m9 Cleaner/Decrystallizer

Concentrate & Wash Bottle

Product #	Description	Size	Box of
7736	1 Bottle of Concentrate 1 Washing Bottle	16 oz (480 ml)	12

External Collection Devices

Urinary Pouches

Female
SoftFlex Skin Barrier

Product #	Description	Box of
9840	Length 7-1/2" (19 cm) Width 4-1/2" (11cm)	10

Male
Flextend Skin Barrier

Thin barrier for flexibility, no additional tape needed

Product #	Description	Box of
9873	Length 7-1/2" (19 cm) Width 4-1/2" (11cm)	10

SoftFlex Skin Barrier

Product #	Description	Box of
9811	Length 7-1/2" (19 cm) Width 4-1/2" (11cm)	10

Hollister's Urinary Pouches:

- Not Made with Natural Rubber Latex
- Have a cut-to-fit skin barrier
- Have a odour-barrier pouch film

Fecal Collectors

Pouches
Flextend Skin Barrier

Product #	Description	Pouch Length	Box of
9823	Medium, Ultra-clear	10" (25 cm)	10
9880	Large, Transparent	12" (30 cm)	

Transparent Pouches
SoftFlex Skin Barrier

Product #	Description	Pouch Length	Box of
9822	Medium	10" (25 cm)	10
9821	Large	12" (30 cm)

Oral Endotracheal Tube Fasteners

AnchorFast

Product #	Description	Box of
9799	• ET tube wrap with one-click security clamp locks the ET tube in place • Gliding tube shuttle allows the ET tube to be easily repositioned from side to side while the tube remains secure • Flextend Skin Barrier • For tubes sized 5.0-10.0mm inner diameter	12

AnchorFast SlimFit

Product #	Description	Box of
9787	• ET tube wrap with one-click security • Gliding tube shuttle allows for side-to-side repositioning of the ET tube • Thumb pad with increased surface area for finger or thumb placement when opening • Designed to accommodate smaller faces • Secures ET tubes ranging in size 5.0-8.0 mm	12

AnchorFast Guard Select

Product #	Description	Box of
9700	• ET tube wrap with one-click security clamp locks the ET tube in place • Gliding tube shuttle allows the ET tube to be easily repositioned from side to side while the tube remains secure • Integrated tube protection sleeve designed to help prevent occlusion • Secures oral ET tubes ranging in size from 5.0 to 9.0 mm inner diameter and ET tubes with integrated subglottic suction lumen sizes 6.0 to 8.0 mm inner diameter	12

AnchorFast Replacement Neck Band Straps

Product #	Description	Box of
9788	Replacement Neck Band Straps	4

Tube Attachment Devices

Horizontal Tube (HTAD)

Product #	Description	Box of
9781	Single use, sterile	5

Vertical Tube (VTAD)

Product #	Description	Box of
9782	Single use, sterile	5

Drain Tube (DTAD)

Product #	Description	Box of
9780	Single use, sterile	5

Feeding Tube (FTAD)

Product #	Description	Box of
9786	• FlexWear skin barrier conforms to patient's nose • Single use, sterile	20

Suction Tube (STAD)

Product #	Description	Box of
9785	• FlexWear skin barrier conforms to patient's nose • Single use, sterile	20

Hollister Secure Start Services

Hollister Secure Start Services provides a lifetime of customized support for people in the ostomy and continence care communities.

We are proud to offer dedicated support for each and every patient along the continuum of care. Once enrolled, a Hollister Secure Start Services Coordinator will call to explain our services, answer any questions, and provide ongoing support.

A Hollister Secure Start Services Coordinator can assist with the following:

- Finding the right products
- Providing product information and condition-specific education
- Finding local resources like retailers and clinicians
- Product usage care tips
- Find reimbursement for your catheter products

Ostomy Care:
