General Information

Terms of Payment

Net 30 days from date of invoice. Electronic Fund Transfers (ETF) are possible. Please contact the customer order department.

Minimum Order

The minimum order requirement for a dealer is \$250.00. A charge of \$10.00 will be applied to any order below the minimum requirement.

Shipping

Prices for shipments to destinations in Canada are FOB buyer's address.

If the method and route of shipment are specified by the buyer, the buyer is required to pay the delivery charges, upon delivery of products to the carrier, all risk of loss and other incidents of ownership pass to the buyer. These terms may not be altered.

Pricing & Terms of Sale

The prices and specifications in this catalogue are subject to change without notice. GST/HST will be charged where applicable. Buyer agrees that they will not at anytime, directly or indirectly, sell or distribute, to customers which are located outside of Canada.

Return Goods Policy

All returns for credit require an authorization number from Hollister Limited. A Returns Goods Authorization can be obtained by contacting a representative at Customer Service 1.800.263.7400 or by email canadacustomerservice@hollister.com. Written request for authorization is required.

Hollister will authorize returns under the following conditions:

1. A 15% restock fee will be applied to all returned goods over 30 days from the date of invoice.
2. Copy of invoice or purchase order number must be provided for the return request.
3. Product returned by customers without an authorized RGA number will be disposed of by Hollister Limited and no credit will be issued.

Hollister will NOT authorize the return of the following:

1. Goods over (1) year from the date of invoice.
2. Partial boxes of merchandise.
3. Boxes in unsaleable condition (i.e markings, sticker for sale, sun fading, dented boxes due to improper handling/return packaging, sticker glue, etc.)

Damaged Product:

1. Customer must call Hollister Limited to receive an RGA number within 5 business days of receipt.

2. Receiving dock is responsible for documenting, on the bill of lading, when a shipment is received in damaged condition.
3. Customer must provide copy of invoice, invoice number or purchase order number for the return request.
4. Credit will **NOT** be issued if customer disposes of damaged/ defective product without approval by Hollister Limited.
5. If product cannot be returned due to extreme damage (leakage/broken) customer must provide pictures to Hollister Limited within 5 business days of receipt to gain approval to dispose and thereby obtain credit for the same.

Ostomy & Continence Retail Sample Policy

All sample requests at the Retail level are to be processed through Hollister Customer Service by calling 1.800.263.7400 or by email canadacustomerservice@hollister.com.

Retailer/client is to contact Customer Service and provide consumer information for sample processing. Samples will be shipped directly to consumers from Hollister Limited. Samples will **no longer** be available to ship directly to a retail setting.

Shortages

Customer must notify Hollister Limited within 5 business days of receipt on shortages. A shortage is a difference between what was physically received and the master pack list.

Customer Satisfaction Return Policy

All Customer Satisfaction Returns require authorization by your Hollister Territory Manager or a Customer Service Representative.

Unauthorized Customer Satisfaction Returns will not be processed.

Hollister will authorize Customer Satisfaction Returns under the following conditions:

1. The customer has been given a no-charge, full box replacement of Hollister product for their partial box return, and
2. A Customer Satisfaction Return form has been completed, and
3. The returned box has been given to, and the completed Customer Satisfaction Return form has been authorized by your Hollister Territory Manager or a Customer Service Representative.

Prior to Use

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

Ostomy Care

Healthy skin. Positive outcomes.

Healthy Skin. Positive Outcomes.

This is our quest. Keeping peristomal skin healthy. The way it was meant to be. Hollister Ostomy Care is dedicated to delivering products that provide an optimum fit to help prevent leakage, along with skin interface formulations to help protect and maintain healthy skin.

We believe every unique person with a stoma deserves a customized solution, and the positive outcomes that can result. Our products and services are designed to do just that.

Thank you for partnering with us on our journey.

Choosing the Right Skin Barrier Formulation

- No single skin barrier works for everyone
- Matching individual needs is at the core of skin barrier formulation selection

Skin type	Type of stomal output	Change frequency
<ul style="list-style-type: none">• Healthy• Normal• Thin• Fragile• Sensitive• Dry• Flaky• Oily• Sweaty	<ul style="list-style-type: none">• Semi-formed/ formed stool• Liquid stool• Urine	<ul style="list-style-type: none">• Frequent• Infrequent

Types of Skin Barriers and Their Performance

Extended Wear Skin Barriers

CeraPlus

- Contains skin barrier characteristics (adhesion, absorption and erosion resistance) and is infused with ceramide—a naturally occurring lipid in the skin which protects against dryness
- Formulation designed to help protect the skin's natural moisture barrier and help maintain good peristomal skin health

Flexextend

- Durable with resistance to erosion
- Swells when it comes in contact with liquid to help form a seal between the skin and the stoma
- Suitable for those who perspire heavily
- Strong adhesion and flexibility

FormaFlex

- Maintains its shape after being stretched or shaped
- Provides an easy-to-customize opening due to barrier material
- Easy to shape to individual stomas without the use of scissors

Standard Wear Skin Barriers

FlexWear

- Good balance of durability and gentleness providing moderate adhesion, and can handle frequent or infrequent pouch changes
- Resistant to fluid erosion
- Suitable for all skin types, depending on change frequency
- Designed to be worn more than one day

SoftFlex

- Appropriate choice for:
 - Those who have thin, fragile, or sensitive skin (such as those who have undergone chemo/radiation therapy)
 - People who desire frequent removal
- Designed to be gentle to the skin, which allows for frequent pouch changes

Karaya 5

- Well-suited for sensitive skin or in some cases where allergic reactions to synthetic barriers has occurred
- Mildly adhesive—needs a belt to secure pouching system

*Remois is a technology of Alcare Co., Ltd.

The CeraPlus Skin Barrier

The CeraPlus skin barrier is designed to maintain adhesive properties, and features a formulation to help:

- Protect the skin's natural moisture barrier
- Maintain good peristomal skin health
- Decrease transepidermal water loss (TEWL) from damaged or eroded skin

New Image Two-Piece Pouching System Features *QuietWear* Material for Discretion

Hollister Ostomy offers many choices for patients—including the unique *QuietWear* pouch material on closed pouches that helps reduce the noise that can be experienced with other pouches.

Colour Matching System

Two-Piece Pouching Systems

To help you select compatible *New Image* pouching system components, every box label is colour-coded.

1. Select the skin barrier flange size with the appropriate barrier stoma opening and note its colour code.
2. Select a suitable pouch with the desired features in the matching colour.

Soft Convex Skin Barriers

Soft convexity is designed to help provide gentle peristomal pressure for an individualized fit. It helps conform to accommodate uneven skin surfaces, and is a more flexible alternative to firm convexity.

- Lock 'n Roll closure
- Tape border
- Beige with viewing option
- AF300 filter
- Belt tabs

Ostomy Care Tips

The Continuum of Convex Barrier Options

Convex barrier products have been utilized to help provide a secure and predictable seal. Product selection is made by matching stomal protrusion and peristomal contours to the appropriate barriers. The outward curving of the convex skin barrier is designed to interface with the immediate peristomal skin.

This interface depends not only on the depth, rigidity and gradient of the convex skin barrier but also on the shape and rigidity of the abdominal wall. For example, a flexible convex barrier can bend and move with the body; a firm convex skin barrier does not bend, rather it remains rigid. Appropriate barrier choice is left to the clinician's assessment of the patient and knowledge of ostomy products.

Barrier Examples

Flat Skin Barrier

Flat Skin Barrier
with Round or Oval
Convex Barrier Ring

Integrated Soft
Convex Barrier

Integrated Convex
Barrier

Integrated Convex
Barrier with Round
or Oval Convex
Barrier Ring

Possible Clinical Case Scenarios

Flat Skin Barrier

- Flat peristomal plane
- Adequate stoma protrusion
- Centered stoma opening

Flexible Convexity

- Stoma flush with skin
- Uneven peristomal plane
- Off-centered stoma opening

Soft Convexity

- Gentle pressure required to
peristomal plane
- Flush stoma
- Peristomal injury

Firm Convexity

- Creases or folds in peristomal plane
- Off-centered stoma opening
- Stoma retracted below
skin surface

Firm Convexity with
More Depth

- Recessed or flushed stoma
- Uneven abdominal contours
- Off-centered stoma opening

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

*Remois is a technology of Alcare Co., Ltd.

Ceramide:

- Is a natural component of human skin, consisting of waxy lipid molecules
- Links cells of the outer skin (epidermis) together to form a waterproof, protective barrier
- Helps prevent water loss that can lead to skin damage and dryness

CeraRing Barrier Rings

- Choose round or oval, based on the size and shape of the stoma
- Use convex rings individually or stack them to build a customized level of convexity
- Pair with a flat skin barrier for flexible convexity
- Add to an integrated convex barrier for deeper convexity that may be needed for certain abdomens or stomas

VaPro Plus Pocket is a closed system with an integrated 1,000 ml collection bag.

VaPro Catheters Provide 100% No Touch Protection with a Protective Tip and Sleeve:

VaPro catheters are hygienic by design to help protect patients from germs throughout the entire catheterization process.

Protective tip:

- helps shield the sterile catheter during insertion from bacteria located within the first 15 mm of the distal urethra
- helps reduce the risk of carrying bacteria into the urinary tract

Protective sleeve:

- allows for catheter to be gripped anywhere
- provides a barrier to the catheter to help keep germs away

The protective tip is designed for male and female use

The protective tip works to greatly reduce the risk of bacteria being carried into the urinary tract during the insertion process.

Discretion by design

Introducing a discreet catheter with design that is truly inspired.

The Infyna Chic catheter was designed with input from clinicians to help provide a high level of discretion for women who use catheters. It is beautiful and easy to use. The Infyna Chic catheter can help a woman feel better about having to use one.

To learn more or to request a sample, visit www.hollister.ca/en-ca/infynachic or call us at **1.800.263.7400**

Prior to use, be sure to read the Instructions For Use for information regarding Intended Use, Contraindications, Warnings, Precautions, and Instructions.

The spirit of Hollister
remains the same today
as it did in 1921.

Our Mission

To make life more rewarding and dignified for the people who use our products and services.

Our Vision

To grow and prosper as an independent, employee-owned company and in the process become better human beings.

Our Heritage

The roots of Hollister Incorporated date back to 1921, when 23-year-old entrepreneur John Dickinson Schneider founded a small printing company in Chicago, which he named JDS Printer Craftsman. From the very beginning, John Schneider's business philosophy was "only first class is good enough," and the company became known for its quality products, quality service, and quality people.

Hollister Secure Start Services

Hollister Secure Start Services provides a lifetime of customized support for people in the ostomy and continence care communities.

We are proud to offer dedicated support for each and every patient along the continuum of care! Once enrolled, a Hollister Secure Start Services Coordinator will call to explain our services, answer any questions, and provide ongoing support.

A Hollister Secure Start Services Coordinator can assist with the following:

- Finding the right products
- Providing product information and condition-specific education
- Finding local resources like retailers and clinicians
- Product usage care tips

**Ostomy
Care**

**Continence
Care**

To learn more about Hollister Secure Start Services, for Ostomy, call us at **1.866.789.7574**, or email us at **securestartcanada@hollister.com**.

For Continence, call us at **1.800.263.7421**, or email us at **canadasscccontact@hollister.com**.

Or visit us at **www.hollister.com**.
