Hollister

A 100-Year Legacy...

The fundamental values and principles
of our founder, John Dickinson Schneider,
form the foundation of our company today.

Our Mission

To make life more rewarding and
dignified for the people who use
our products and services.

Our Vision

To grow and prosper as an
independent, employee-owned
company and in the process
become better human beings.

Our Heritage

The roots of Hollister Incorporated date back to 1921, when 23-year-old
entrepreneur John Dickinson Schneider founded a small printing company in
Chicago, which he named JDS Printer Craftsman. From the very beginning,
John Schneider's business philosophy was "only first class is good enough,"
and the company became known for its quality products, quality service, and
quality people.

Table of Contents

General Information

Terms of Payment

Net 30 days from date of invoice. Electronic Fund Transfers (ETF) are possible. Please contact the customer order department.

Minimum Order

The minimum order requirement for a dealer is $250.00. A charge of $10.00 will be applied to any order below the minimum requirement.

Shipping

Prices for shipments to destinations in Canada are FOB buyer's address.

If the method and route of shipment are specified by the buyer, the buyer is required to pay the delivery charges, upon delivery of products to the carrier, all risk of loss and other incidents of ownership pass to the buyer. These terms may not be altered.

Pricing & Terms of Sale

GST/HST will be charged where applicable. Buyer agrees that they will not at anytime, directly or indirectly, sell or distribute, to customers which are located outside of Canada.

Return Goods Policy

All returns for credit require an authorization number from Hollister Limited. A Returns Goods Authorization (RGA) can be obtained by contacting a representative at Customer Service 1.800.263.7400 or by email canadacustomerservice@hollister.com. Written request for authorization is required.

Hollister will authorize returns under the following conditions:

1. A 15% restock fee will be applied to all returned goods over 30 days from the date of invoice.
2. Copy of invoice or purchase order number must be provided for the return request.
3. **Product returned by customers without an authorized RGA number will be disposed of by Hollister Limited and no credit will be issued.**

Hollister will NOT authorize the return of the following:

1. Goods over one (1) year from the date of invoice.
2. Partial boxes of merchandise.
3. Boxes in unsaleable condition (i.e markings, sticker for sale, sun fading, dented boxes due to improper handling/return packaging, sticker glue, etc.)

Damaged Product:

1. Customer must call Hollister Limited to receive an RGA number within 5 business days of receipt.
2. Receiving dock is responsible for documenting, on the bill of lading, when a shipment is received in damaged condition.
3. Customer must provide copy of invoice, invoice number or purchase order number for the return request.

4. Credit will **NOT** be issued if customer disposes of damaged/defective product without approval by Hollister Limited.
5. If product cannot be returned due to extreme damage (leakage/broken) customer must provide pictures to Hollister Limited within 5 business days of receipt to gain approval to dispose and thereby obtain credit for the same.

Ostomy & Continence Retail Sample Policy

All sample requests at the Retail level are to be processed through Hollister Customer Service by calling 1.800.263.7400 or by email canadacustomerservice@hollister.com.

Retailer/client is to contact Customer Service and provide consumer information for sample processing. Samples will be shipped directly to consumers from Hollister Limited. Samples will **no longer** be available to ship directly to a retail setting.

Shortages

Customer must notify Hollister Limited within 5 business days of receipt on shortages. A shortage is a difference between what was physically received and the master pack list.

Customer Satisfaction Return Policy

All Customer Satisfaction Returns require authorization by your Hollister Territory Manager or a Customer Service Representative.

Unauthorized Customer Satisfaction Returns will not be processed.

Hollister will authorize Customer Satisfaction Returns under the following conditions:

1. The customer has been given a no-charge, full box replacement of Hollister product for their partial box return, and
2. A Customer Satisfaction Return form has been completed, and
3. The returned box has been given to, and the completed Customer Satisfaction Return form has been authorized by your Hollister Territory Manager or a Customer Service Representative.

Prior to Use

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

Latex Statement

The specifications for the Hollister Continence Care products listed below include natural rubber latex as a component; our suppliers add natural rubber latex as part of the production process. If a Hollister product(s) found in this catalog is not listed below, the specification for that product(s) and packaging does not include natural rubber latex as a component, and our component suppliers do not add natural rubber as part of their production process. Product # 9206, 9207, 9208, 9209, 9106, 9107, 9108, 9109

Ostomy Care

Healthy skin. Positive outcomes.

Healthy Skin. Positive Outcomes.

Choosing the Right Skin Barrier FIT

FIT is critical to get a good seal around the stoma to prevent leakage and promote comfort.

Barrier Examples

Flat Skin Barrier

Flat Skin Barrier with Round or Oval Convex Barrier Ring

Integrated Soft Convex Barrier

Integrated Convex Barrier

Integrated Convex Barrier with Round or Oval Convex Barrier Ring

Possible Clinical Case Scenarios

Flat Skin Barrier
- Flat peristomal plane
- Adequate stoma protrusion
- Centered stoma opening

Flexible Convexity
- Stoma flush with skin
- Uneven peristomal plane
- Off-centered stoma opening

Soft Convexity
- Gentle pressure required to peristomal plane
- Flush stoma
- Peristomal injury

Firm Convexity
- Creases or folds in peristomal plane
- Off-centered stoma opening
- Stoma retracted below skin surface

Firm Convexity with More Depth
- Recessed or flushed stoma
- Uneven abdominal contours
- Off-centered stoma opening

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

Healthy Skin. Positive Outcomes.

Choosing the Right Skin Barrier FORMULATION

FORMULATION is the customized ingredients responsible for adhesion, erosion resistance and absorption that must be carefully formulated to create an environment where healthy skin can thrive.

Extended Wear Skin Barriers

CeraPlus

- Contains skin barrier characteristics (adhesion, absorption and erosion resistance) and is infused with ceramide—a naturally occurring lipid in the skin which protects against dryness
- Formulation designed to help protect the skin's natural moisture barrier and help maintain good peristomal skin health

Flextend

- Durable with resistance to erosion
- Swells when it comes in contact with liquid to help form a seal between the skin and the stoma
- Suitable for those who perspire heavily
- Strong adhesion and flexibility

FormaFlex

- Maintains its shape after being stretched or shaped
- Provides an easy-to-customize opening due to barrier material
- Easy to shape to individual stomas without the use of scissors

Standard Wear Skin Barriers

FlexWear

- Good balance of durability and gentleness providing moderate adhesion, and can handle frequent or infrequent pouch changes
- Resistant to fluid erosion
- Suitable for all skin types, depending on change frequency
- Designed to be worn more than one day

SoftFlex

- Appropriate choice for:
  - Those who have thin, fragile, or sensitive skin (such as those who have undergone chemo/radiation therapy)
  - People who desire frequent removal
- Designed to be gentle to the skin, which allows for frequent pouch changes

Karaya 5

- Well-suited for sensitive skin or in some cases where allergic reactions to synthetic barriers has occurred
- Mildly adhesive—needs a belt to secure pouching system

CeraPlus™ skin barrier
with Remois Technology*

vs. SenSura Mio

The Results are Clear:
CeraPlus Skin Barrier Helps Ensure Healthy Skin

In the Measuring Epidermal Effects of Ostomy Skin Barriers study (Grove et al, 2019), the CeraPlus skin barrier was significantly more effective at maintaining skin health than the SenSura Mio barrier.

	CeraPlus Skin Barrier	SenSura Mio Barrier
Infused with ceramide, the skin's natural protection against water loss	✓	✗
Observed to be better at minimizing skin irritation	✓	✗
Observed to be better at managing Transepidermal water loss (TEWL)	✓	✗
Observed to be better at protecting skin against damage from repeated barrier removal	✓	✗
Observed to be better at maintaining skin health	✓	✗

CeraPlus Skin Barrier Minimizes Potential Impact of Peristomal Skin Complications Right from the Start!

Designed for Diverse Bodies

Adhesive (Tape) Border Barriers are an appropriate option for most patients, especially those with:

- Skin irregularities such as hernias, wrinkles, or scars
- Anatomical challenges due to obesty or cachexia
- Added need for a sense of security, or extra assurances to accommodate an active lifestyle
- Increased desire for comfort and flexibility

Choosing the Right Skin Barrier FIT

- FIT is critical to get a good seal around the stoma to prevent leakage and promote comfort.
- Convex barrier products can be utilized to help provide a secure and predictable seal.
- Product selection is made by matching stomal protrusion and peristomal contours to the appropriate barriers.
- The outward curving of the convex skin barrier is designed to interface with the immediate peristomal skin.

Refer to page 4 for additional information on The Continuum of Convex Barrier Options.

Lock 'n Roll Microseal Closure Features:
- A secure closure with tiny microseals
- An easy-to-open-and-close seal
- The material used on the closure is water-resistant and can be securely closed even when it is wet, but will work best when dry.

A Great Pouch Becomes Even Better

Enhanced Flow-Control Valve

The new valve is made with softer material and a streamlined shape.

New Multi-Chamber Design

The updated pouches now have multiple built-in chambers, which are designed to facilitate even distribution of urine.

Follow the evidence to help ensure healthy skin

After surgery: Peristomal skin starts healthy

+

Top layers of the epidermis are removed with *every barrier change*.
It's unavoidable, and the damage isn't always visible.

+

Epidermal stripping is linked to increased levels
of transepidermal water loss (TEWL)[1,2]

Healthy Skin:
**Keeps moisture in and irritants out**

Irritants and bacteria

Dry or cold air

Water retained

Low TEWL value = higher skin integrity[3]

Ceramides are abundant in healthy skin.
They form a waterproof barrier to help keep moisture in and bacteria out.

── = Ceramides

Damaged Skin:
Allows moisture out and irritants in

Water loss

Irritants and bacteria

Water loss

Dry or cold air

Higher TEWL value = lower skin integrity[3]

Damaged skin contains fewer ceramides.

💧 = Water droplet illustrates moisture loss from skin.

Healthy Skin. Positive Outcomes.

What Happens When Skin is Compromised

Some common signs of a
Persitomal Skin Complication (PSC) include:

**ITCHING • REDNESS • PAIN • WEEPING SKIN
BLEEDING • BURNING**

PSCs are often classified as
**Peristomal Medical Adhesive-Related
Skin Injury (PMARSI)[9]** and **Peristomal
Moisture-Associated Skin Damage (PMASD)[1]**

PSCs associated with
**INCREASED COST
OF CARE**[6]

PSCs associated with
**LOWER QUALITY
OF LIFE**[7]

What Happens When You Choose CeraPlus Skin Barrier

RELATIVE REDUCTION
in the number of PSCs[5]

INCREASED SATISFACTION
with prevention of itching[5]

Significantly
**LOWER STOMA-RELATED
COST OF CARE**[5]

Significantly
**MORE LIKELY TO
RESOLVE PSCs**[5]

**TEWL IS
MINIMIZED**[2,8]

Healthier peristomal skin =
HIGHER QUALITY OF LIFE[7]

You have a choice. Choose CeraPlus skin barrier and
help ensure healthy peristomal skin for your patients from **DAY ONE**.

Remois is a technology of Alcare Co., Ltd.

Soft Convex Skin Barriers

Soft convexity is designed to help provide gentle peristomal pressure for an individualized fit. It helps conform to accommodate uneven skin surfaces, and is a more flexible alternative to firm convexity.

- Lock 'n Roll closure
- Tape border
- Beige with viewing option
- AF300 filter
- Belt tabs

Tapered Border is Designed for Enhanced Sense of Security

- Tapered barrier edges help prevent lift from moisture or motion, which can help achieve desired wear time
- Gentle on the skin while still giving the feeling of extra security
- Adhesive flexes and bends to move comfortably with the body
- A new flexible plastic release liner that covers both the skin barrier and the adhesive border to help improve ease-of-use

A Great Pouch Becomes Even Better

Enhanced Flow-Control Valve

The new valve is made with softer material and a streamlined shape.

New Multi-Chamber Design

The updated pouches now have multiple built-in chambers, which are designed to facilitate even distribution of urine.

Adhesive (Tape) Border Barriers

- Feature a thin layer of adhesive that surrounds the hydrocolloid barrier.

- Designed to be gentle on the skin, the adhesive moves with the body to easily conform to skin irregularities, creases and folds.

- Application is simple, with no additional accessories required to gain an added sense of protection. Go with the skin barrier that comes with built-in confidence.

Adapt CeraRing

Sealed with the confidence of ceramide

The security + confidence of Adapt meets the science of ceramide

- Available in Flat and Convex for each individual need
- Helps prevent leakage and protect skin—and may even extend barrier wear time
- Resists erosion—even when wet or exposed to discharge from the stoma
- Offers ultimate comfort and ease of use—alcohol-free rings are designed to be gentle for all skin types
- Extended wear

- Infused with ceramide — a natural component of the skin
- Help protect the skin's natural moisture barrier
- Help decrease transepidermal water loss (TEWL) from damaged or eroded skin

Accessories

Adapt Accessories

Product #		Description	Usage	Size		Box of
7760		Universal Remover Wipes *featuring no-sting silicone-based, alcohol free formulation*	Silicone-based and alcohol-free, this skin friendly product helps remove adhesive residues.	50 Wipes per Carton		50
7737		Adapt Medical Adhesive Remover Spray *featuring no-sting, silicone-based, alcohol free formulation*	360° spray technology to deliver controlled, quiet spraying from any angle, with minimal waste	Spray Can	1.7 fl oz (50 ml)	1
7906		Adapt Stoma Powder	Use to absorb moisture from broken skin around the stoma. Dust on. Brush off excess powder. Stop using when skin heals.	Puff bottle	1 oz (28 g)	1
79402		Adapt Barrier Extenders	Helps provide extra security around the edges of skin barrier, reduces skin barrier edge lifting and may help increase skin barrier wear time. Provides extra adhesion to accommodate a peristomal hernia.	Each barrier extender covers a surface area of 48 cm^2		30
78500		Adapt Lubricating Deodorant	Neutralizes odours, eases emptying, and helps prevent pouch static and sticking. It is not a perfume or masking agent. Should be used in drainable and closed pouching systems only.	Bottle	8 oz (236 ml)	1
78501				Packets	.27 oz (8 ml)	50
79301		Adapt Paste	Used to fill or caulk uneven skin contours to create a flatter surface. It can help to prevent drainage from getting under the ostomy skin barrier.	Tube	.5 oz (14 g)	20
79300					2 oz (60 g)	1
79400		Adapt Barrier Strips with Flextend Barrier (Alcohol Free)	Used to fill in or caulk uneven skin contours near the stoma to create a flatter surface and help prevent ostomy drainage from getting under the ostomy barrier.	Triangular Shape	5-1/8" (13 cm)	10
7730		Medical Adhesive Spray	Improves adhesive contact between skin and barrier Not recommended for use with extended wear barriers	Spray Can *Contains no CFCs*	3.8 oz (112 ml)	1
7917		Adapt Skin Protective Wipe *featuring no-sting silicone-based, alcohol free formulation*	Protects skin during adhesive removal Not recommended for use with extended wear skin barriers	50 Wipes per Carton		50

Hollister Secure Start Services

Hollister Secure Start Services provides a lifetime of customized support for people in the ostomy and continence care communities.

We are proud to offer dedicated support for each and every patient along the continuum of care! Once enrolled, a Hollister Secure Start Services Coordinator will call to explain our services, answer any questions, and provide ongoing support.

A Hollister Secure Start Services Coordinator can assist with the following:
- Finding the right products
- Providing product information and condition-specific education
- Finding local resources like retailers and clinicians
- Product usage care tips

Ostomy Care

Continence Care

To learn more about Hollister Secure Start Services, for Ostomy, call us at **1.866.789.7574**, or email us at **securestartcanada@hollister.com**.

For Continence, call us at **1.800.263.7421**, or email us at **canadassscccontact@hollister.com**.

Continence Care

People are at the center of everything we do.

Infyna Chic

Discretion by design
Introducing a discreet catheter with design that is truly inspired.

The Infyna Chic™ Intermittent Catheter was designed with input from clinicians to help provide a high level of discretion for women who use catheters. It is beautiful and easy to use. The Infyna Chic catheter can help a woman feel better about having to use one.

Infyna Chic catheter

Another reason to choose VaPro™
No Touch F-Style Intermittent Catheter

The VaPro F-Style catheter, a firmer-style catheter, offers patients the freedom to choose more firmness and the extra protection that the portfolio of VaPro intermittent catheters delivers.

VaPro™
No Touch Intermittent Catheter

Hollister®

Continence Care

Touch Free Hydrophilic Intermittent Catheters

VaPro Catheters Provide 100% No Touch Protection with a Protective Tip and Sleeve:

VaPro catheters are hygienic by design to help protect patients from germs throughout the entire catheterization process.

Protective tip:
- helps shield the sterile catheter during insertion from bacteria located within the first 15 mm of the distal urethra
- helps reduce the risk of carrying bacteria into the urinary tract

Protective sleeve:
- allows for catheter to be gripped anywhere
- provides a barrier to the catheter to help keep germs away

100% NO TOUCH PROTECTION

Advance Plus Touch Free Intermittent Catheters:

- Have a protective tip that helps shield the catheter from bacteria located in the first 15 mm of the distal urethra
- Have a user-regulated gel reservoir which allows for control of the catheter lubrication
- Smooth eyelets help provide trouble-free insertion and withdrawal

"It's not possible for anyone to live life and never have any problems. But for every problem, there is a solution. A person just has to go out and find it."

Trusted Quality. Reliable Performance. Cost Effective.

Apogee IC intermittent catheters feature smooth eyelets that are designed to aid comfortable insertion and removal. Non lubricated and not made with natural rubber latex.

Smooth eyelets aid comfortable insertion and removal

Hollister Secure Start Services

Hollister Secure Start Services provides a lifetime of customized support for people in the ostomy and continence care communities.

We are proud to offer dedicated support for each and every patient along the continuum of care. Once enrolled, a Hollister Secure Start Services Coordinator will call to explain our services, answer any questions, and provide ongoing support.

A Hollister Secure Start Services Coordinator can assist with the following:

- Finding the right products
- Providing product information and condition-specific education
- Finding local resources like retailers and clinicians
- Product usage care tips
- Find reimbursement for your catheter products

Ostomy Care:

ENROLL HERE

We're here for you, no matter where 'here' is.

We know that the way clinicians connect with patients has seen much change in recent times. Through it all, Hollister remains committed to our mission of making life more rewarding and dignified for the people who use our products and services. We've kept our customer support programs accessible and approachable— even if remotely—and we're committed to continuing our focus on maintaining the supply of essential Ostomy and Continence Care products our customers need. You can rely on us, so they can rely on you.
