Making a Difference
in the Journey of Life

2025 Product Catalogue

Hollister®

The fundamental values and principles
of our founder, John Dickinson Schneider,
form the foundation of our company today.

Our Mission

To make life more rewarding and
dignified for the people who use
our products and services.

Our Vision

To grow and prosper as an
independent, employee-owned
company and in the process
become better human beings.

Our Heritage

The roots of Hollister Incorporated date back to 1921, when 23-year-old
entrepreneur John Dickinson Schneider founded a small printing company in
Chicago, which he named JDS Printer Craftsman. From the very beginning,
John Schneider's business philosophy was "only first class is good enough,"
and the company became known for its quality products, quality service, and
quality people.

Ostomy Care

Healthy skin. Positive outcomes.

Healthy Skin. Positive Outcomes.

Choosing the Right Skin Barrier FIT

FIT is critical to get a good seal around the stoma to prevent leakage and promote comfort.

Possible Clinical Case Scenarios	Barrier Examples
• Flat peristomal plane • Adequate stoma protrusion • Centered stoma opening	Flat Skin Barrier
• Gentle pressure required to peristomal plane • Flush stoma • Peristomal injury	Integrated Soft Convex Barrier
• Stoma flush with skin • Uneven peristomal plane • Off-centered stoma opening	Flat Skin Barrier with Round or Oval Convex Barrier Ring
• Creases or folds in peristomal plane • Off-centered stoma opening • Stoma retracted below skin surface	Integrated Convex Barrier
• Recessed or flushed stoma • Uneven abdominal contours • Off-centered stoma opening	Integrated Convex Barrier with Round or Oval Convex Barrier Ring

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

2. Hoeflok J et al. Use of Convexity in Ostomy Care: Results of an International Consensus Meeting. JWOCN, January/February 2017

Characteristics of Convex Skin Barriers and Clinical Application: Results of an International Consensus Panel

Method Concensus of 12 nurses from 11 countries with extensive experience in ostomy care

Results Five convex skin barrier characteristics and 16 clinical application statements reached

Conclusion Standard definitions to help clinicians select the right convex barrier based on assessment criteria for better patient outcomes

Scan the QR Code to read the full consensus results!

The Five Characteristics of Convexity

1. Depth

The **depth** of the convex skin barrier is defined as the measurement from the apex of the dome to the base.

Depth
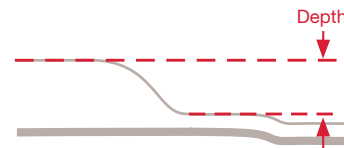

2. Compressibility

Compressibility is the capacity of the convex dome to be displaced or flattened.

3. Flexibility

Flexibility is how easily the convex skin barrier can bend.

4. Tension Location

Tension location is the position in which the Convex dome exerts downward and outward forces on the peristomal topography.
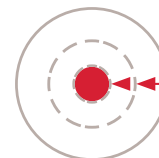

5. Slope

The **Slope** is the angle from the base of the convex skin barrier to the apex of the dome.

Slope

Hollister CeraPlus™

Ostomy Products* have received official dermatological accreditation from the Skin Health Alliance

Who is the Skin Health Alliance?

The **Skin Health Alliance** is a leading international skin health organization that works closely with dermatologists, scientists and the skin care industry with a common interest in the promotion of healthy skin. The **Skin Health Alliance** awards professional accreditation and endorsement to companies, services and brands seeking independent dermatological recognition for their product research.

- **Hollister CeraPlus™** Ostomy Products* have received official dermatological accreditation from the Skin Health Alliance

- In addition to the current rigorous safety testing our products go through, the SHA accreditation signifies that the **Hollister CeraPlus™** Ostomy Products have been independently verified by a specialist panel.

- **Hollister CeraPlus™** Ostomy Products may help prevent skin problems and help keep skin healthy from Day 1.

- By choosing **Hollister CeraPlus™** Ostomy Products, people using stoma pouches can have the confidence and pride of knowing their barrier helps protect their skin, empowering them to live their life to the fullest.
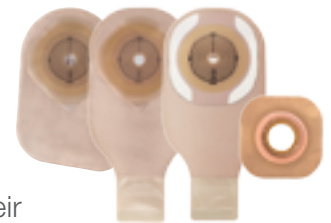

Ostomy Care
Healthy skin. Positive outcomes.

Colour Matching System

Two-Piece Pouching Systems

To help you select compatible *New Image* pouching system components, every box label is colour-coded.

1. Select the skin barrier flange size with the appropriate barrier stoma opening and note its colour code.

2. Select a suitable pouch with the desired features in the matching colour.

- 1-3/4" (44 mm)
- 2-1/4" (57 mm)
- 2-3/4" (70 mm)

Lock 'n Roll Microseal Closure Features:

- A secure closure with tiny microseals
- An easy-to-open-and-close seal
- The material used on the closure is water-resistant and can be securely closed even when it is wet, but will work best when dry.

18014		2-3/4" (70 mm)	12" (30 cm)		
18016		4" (102 mm)	12" (30 cm)		

Features include:
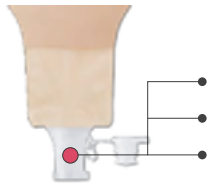

A reimagined wide-bore soft tap
minimises the burden of blockages

A large inner diameter

Soft, flexible, and durable material

Plug-style closure with a large knob
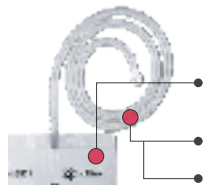

Large collection bag and long tubing
offer patients more freedom — day and night

2 litre capacity collection bag – Less frequent draining may improve quality of sleep

Corrugated tubing reduces kinking during movement

152.4cm tube offers freedom of movement
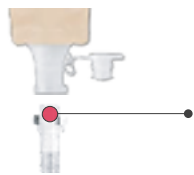

Intuitive locking mechanism
connects patients to an extra sense of security

New twist and lock feature for a secure pouch drain tap and collection bag connection

Choosing the Right Skin Barrier FORMULATION

FORMULATION is the customized ingredients responsible for adhesion, erosion resistance and absorption that must be carefully formulated to create an environment where healthy skin can thrive.

Extended Wear Skin Barriers

CeraPlus™ Skin Barriers*

- Contains skin barrier characteristics (adhesion, absorption and erosion resistance) and is **infused with ceramide** — a naturally occurring lipid in the skin which protects against dryness

- Formulation designed to help protect the skin's natural moisture barrier and help maintain good peristomal skin health

Flextend

- Durable with resistance to erosion

- Swells when it comes in contact with liquid to help form a seal between the skin and the stoma

- Suitable for those who perspire heavily

- Strong adhesion and flexibility

Standard Wear Skin Barriers

FlexWear

- Good balance of durability and gentleness providing moderate adhesion, and can handle frequent or infrequent pouch changes

- Resistant to fluid erosion

- Suitable for all skin types, depending on change frequency

- Designed to be worn more than one day

SoftFlex

- Appropriate choice for:
  - Those who have thin, fragile, or sensitive skin (such as those who have undergone chemo/radiation therapy)
  - People who desire frequent removal

- Designed to be gentle to the skin, which allows for frequent pouch changes

Did you know?

Hollsiter CeraPlus™ Ostomy Products* have received official dermatological accreditation from the Skin Health Alliance.

Who is the Skin Health Alliance? It is a leading international skin health organization that works closely with dermatologists, scientists and skin care industry with a common interest in the promotion of healthy skin. The Skin Health Alliance awards professional accreditation and endorsement to companies, services and brands seeking independent dermatological recognition for their product research.

CeraPlus™ Soft Convex –
An Ideal Choice, Right from the Start

**Choose a proactive path to healthy peristomal skin
with CeraPlus™ Soft Convex**

Meeting individual needs
CeraPlus™ Soft Convex is available in a range of sizes in one and two piece to suit individual needs
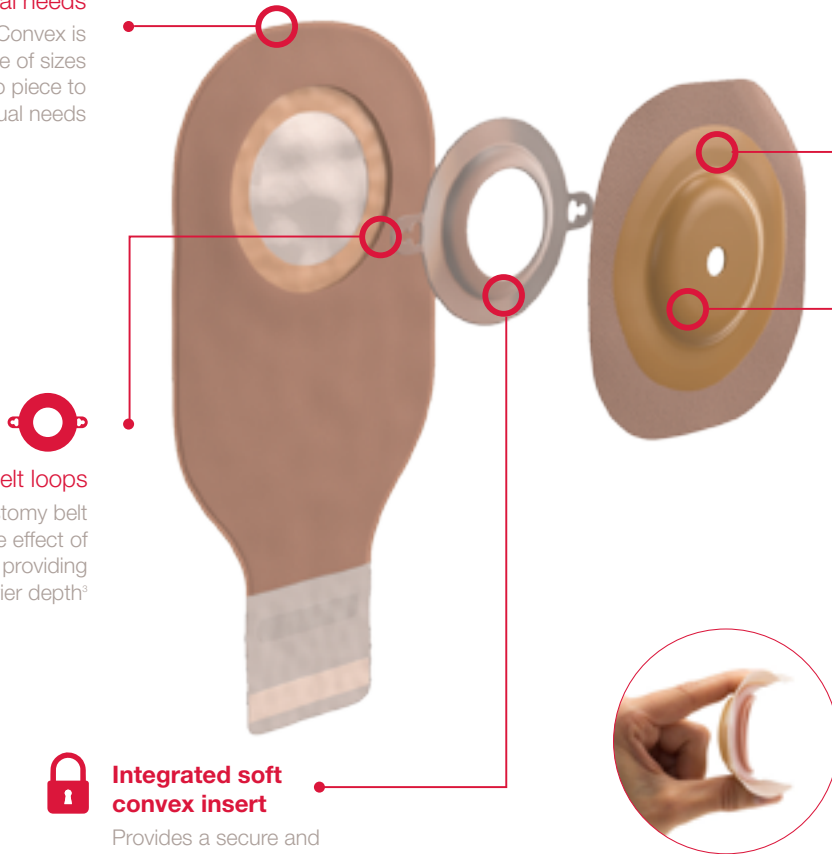

Comfortable and secure fit
Designed to conform to individual and changing body shapes for comfort and protection against leakage

Built in belt loops
The use of an ostomy belt can enhance the effect of the convexity by providing more barrier depth[3]

Ceramide-infused skin barrier[2]
Ceramides serve as the skin's natural protection against water loss

Integrated soft convex insert
Provides a secure and comfortable fit to support the peristomal skin while applying gentle pressure to help the stoma protrude and flatten creases and folds

Available in both one- and two-piece options.

"Convexity should be considered in the immediate post operative period to ensure a consistent predictable seal and reduce the risk of leakage."

Convexity Consensus Statement 3
Colwell J. et al. Use of a Convex Pouching System in the Post Operative Period. A National Consensus. JWOCN 2022;49(3):240-246
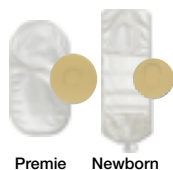

Hollister®

Shadow Buddies dolls

- Exclusive to **Hollister**, *Shadow Buddies* dolls are special friends for children who have had or will have ostomy surgery
- Great teaching tool to help with education and care giving
- Huggable dolls with heart-shaped eyes and a stoma provide comfort and support

Shadow Buddies is a trademark of the Shadow Buddies Foundation

Accessories

Ceramide Infused Accessories

Sealed with the confidence of ceramide

The security + confidence of Adapt Accessories meet the science of ceramide

- Infused with ceramide — a natural component of the skin

- Help protect the skin's natural moisture barrier

- Helps prevent leakage and protect skin—and may even extend barrier wear time

- Help decrease transepidermal water loss (TEWL) from damaged or eroded skin sists erosion—even when wet or exposed to discharge from the stoma

The catheter glides effortlessly for ease of use giving users confidence and more time for living.[1]

Jonny uses VaPro™ catheters
Katie uses Infyna Chic™ catheters

Experience the ease of use[2] and comfort[3] of our NEW HydraBalance™ Lubricating Technology

Made with naturally sourced ingredients, its unique combination of hydrophilic coating and hydration fluid creates a smoothly gliding hydrogel cushion that not only helps protect the urethra, but also provides smooth and effortless insertion and withdrawal for a more confident and natural catheter experience.[4, 5]

Key features of our NEW HydraBalance™ Lubricating Technology:

- **Smooth and comfortable on catheter insertion and withdrawal.[6]**

- **Helps protect the urethra from potential micro trauma and Urinary Tract Infections.[7]**

- **Designed to capture the right balance of naturally sourced ingredients for as natural of an intermittent catheter experience as possible.[8]**

Touch Free Hydrophilic Intermittent Catheters

VaPro Catheters Provide 100% No Touch Protection with a Protective Tip and Sleeve:
VaPro catheters are hygienic by design to help protect patients from germs throughout the entire catheterization process.

Protective tip:
• helps shield the sterile catheter during insertion from bacteria located within the first 15 mm of the distal urethra
• helps reduce the risk of carrying bacteria into the urinary tract

Protective sleeve:
• allows for catheter to be gripped anywhere
• provides a barrier to the catheter to help keep germs away

100% NO TOUCH PROTECTION

VaPro™ Pocket

Start Right Here.
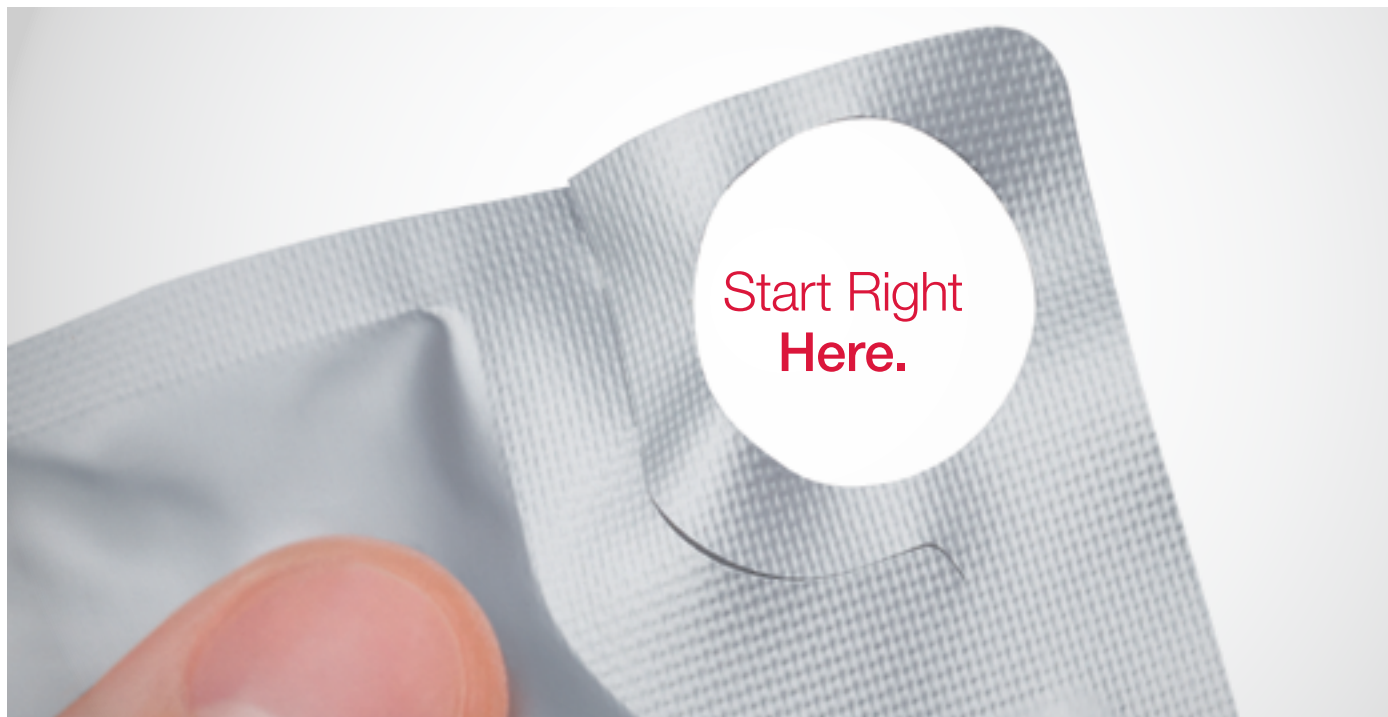

VaPro Pocket™ catheters offer the features that patients want.[1]
Protection. Ease of Use. Discretion.

VaPro Pocket catheters provide 100% No Touch Protection with a protective tip and sleeve, and they are easy to use, with an improved protective tip that offers a more comfortable insertion. The pocket-size package design is more discreet—a quality users prefer.

Consider VaPro Pocket catheters right from the start.

Improved catheter. Discreet packaging.

VaPro™ No Touch
Intermittent Catheters

New Study[1] Confirms
Superior Protection*

Hollister asked an independent laboratory to conduct a study to see if the **superior protection** of VaPro™ No Touch Intermittent Catheters could be measured. The study compared VaPro catheters to three other brands.

*In comparison to other tested catheters.

General Information

Terms of Payment

Net 30 days from date of invoice. Electronic Fund Transfers (EFT) are possible. Please contact: CanadaContact@Hollister.com

Minimum Order

The minimum order requirement is $250.00.
A charge of $10.00 will be applied to any order below the minimum requirement.

Shipping

Prices for shipments to destinations in Canada are FOB buyer's address.

If the method and route of shipment are specified by the buyer, the buyer is required to pay the delivery charges, upon delivery of products to the carrier, all risk of loss and other incidents of ownership pass to the buyer. These terms may not be altered.

Pricing & Terms of Sale

GST/HST will be charged where applicable. Buyer agrees that they will not at anytime, directly or indirectly, sell or distribute, to customers which are located outside of Canada.

Hollister Return Goods Policy

All returns for credit require written authorization from Hollister Limited. A Return Goods Authorization can be obtained by contacting a Customer Service representative at Hollister Limited via email at canadacustomerservice@hollister.com. Only unopened, full boxes of items sold and fulfilled by Hollister Limited may be returned. Items must be in re-sellable condition, with no external labelling or markings. Customer has **14 days** from the date of receipt to return for a full refund.

- A 15% restock fee will be applied to all returned goods over **14 days** from the date of receipt.
- No returns allowed on any goods over **30 days** from date of receipt.
- Copy of invoice or purchase order number must be provided for the return request.
- Product SKU and Lot# must match PO.
- Returned goods must match what is on the approved Return Goods Authorization.
- Any goods included in the return not part of the approved Return Goods Authorization will be refused and returned to sender at the customer's expense.
- All returns must be shipped to address listed on the Return Goods Authorization.
- Returns shipped to any other address will not be credited and will be returned at the customer's expense.
- Unauthorized returns will not be accepted. Unauthorized returns will be refused and returned at the customer's expense.

Damaged Product
- Customer must contact Hollister Limited to receive a Return Goods Authorization within 10 days of receipt.
- **Customer must receive written approval and has 30 days to return Damaged Product.**

www.hollister.com

- Receiving dock must show in writing any package received damaged for Hollister to claim from Freight Company.
- Customer must provide copy of invoice or purchase order number for the return request.
- Credit will not be issued if customer disposes the damaged product without approval by Customer Service.
- If product cannot be returned due to extreme damage (leakage/broken) customer must provide pictures to Customer Service within **10 days** of receipt to get approval to dispose of and thereby obtain credit for the same.

Shortages
- Customer must notify Hollister Limited Customer Service within **10 days** of receipt on shortages. Receiving dock must show in writing any package received short.

Ostomy & Continence Retail Sample Policy

All sample requests at the Retail level are to be processed through Hollister Customer Service by calling 1.800.263.7400 or by email canadasamples@hollister.com.

Retailer/client is to contact Customer Service and provide consumer information for sample processing. Samples will be shipped directly to consumers from Hollister Limited. Samples will **no longer** be available to ship directly to a retail setting.

Shortages

Customer must notify Hollister Limited within 5 business days of receipt on shortages. A shortage is a difference between what was physically received and the master pack list.

Customer Satisfaction Return Policy

All Customer Satisfaction Returns require authorization by your Hollister Territory Manager or a Customer Service Representative.

Unauthorized Customer Satisfaction Returns will not be processed.

Hollister will authorize Customer Satisfaction Returns under the following conditions:

1. The customer has been given a no-charge, full box replacement of Hollister product for their partial box return, and
2. A Customer Satisfaction Return form has been completed, and
3. The returned box has been given to, and the completed Customer Satisfaction Return form has been authorized by your Hollister Territory Manager or a Customer Service Representative.

Prior to Use

Prior to use, be sure to read the Instructions for Use for information regarding intended use, contraindications, warnings, precautions and instructions.

Latex Statement

The specifications for the Hollister Continence Care products listed below include natural rubber latex as a component; our suppliers add natural rubber latex as part of the production process. If a Hollister product(s) found in this catalog is not listed below, the specification for that product(s) and packaging does not include natural rubber latex as a component, and our component suppliers do not add natural rubber as part of their production process.
